🧠 SKILLS

Back-end Development

API integration

Testing & Debugging

Security & Best Practices

Version control & Collaboration

Database Management

Front-end Develpment

🧩 TOOLS & DEVOPS

- CI/CD (Git & GitHub / GitLab)
- Postman
- Docker
- ngrok
- ESLint
- AWS CloudFormation

{} STACKS

Mern Stack | Mean Stack | NextJs
.NET Stack | Django Stack | Spring Boot

📁 PROJECTS

STUDENT MANAGEMENT SYSTEM

Wall Art E-Commerce Platform ⊡

Automobile Website ⊡

BLOGGING SYSTEM (Currently in Development)

E COMMERCE SYSTEM (Currently in Development) ⊡
    Front end - React js, tailwind css
    Back end - NodeJs, ExpressJs
    Other   - RESTful API

SIMPLE AI-POWERED NEWS ANALYZER ⊡
    Front end - Reactjs / tailwind css
    Back end - Node js / express js
    Other   - AI API / Vite

Crud Applications
    .Net
    Laravel
    Mern & mean

AI- Powered Recipe Genarator ⊡
    Front end - Reactjs / tailwind css
    Back end - Node js / express js
    Other   - AI API / Vite

</> LANGUAGES FRAMEWORKS/LIBRARIES

JAVASCRIPT — NodeJs, ExpressJs, ReactJs, Vite, Blazor, Bun, Axios, NextJs, Angular |

Python — Django, Flask, TensorFlow, PyTorch, Jupyter Notebooks | **PHP** — Laravel | **C#** — .NET, .NET Core, ASP.NET | **Java** — Spring Stack

🎓 EDUCATION

Bachelor of Science in Information Technology and computing
SIBA CAMPUS ⊡
2022 – Present | KANDY, Sri Lanka
UNERGRADUATE

🏅 CERTIFICATES

TypeScript – Coursera · 2025 ⊡
Skills Learned: TypeScript fundamentals, static typing, interfaces, advanced types (union, intersection, generics), type inference, asynchronous programming (async/await), decorators, modules/namespaces, and integration with JavaScript.

React Basics – META · 2025 ⊡
Skills Learned: Reusable components, dynamic rendering based on state changes, props for component communication, form handling in React, interactive and responsive UI development, scalable project structure, full application building with React, and front-end web development fundamentals.
